PROFILE

Full-Stack Engineer with 4+ years of experience building scalable software applications using React, Next.js, Node.js, and MongoDB. Strong frontend specialization with hands-on experience in design and integrating LLM-based AI automation(RAG, embeddings, agent workflows) into production systems.

SKILLS

Languages: JavaScript, TypeScript, Python

Frontend: React, Next.js, HTML, CSS, SCSS, Tailwind CSS

Backend: Node.js, Express.js, FastAPI, REST APIs

Databases: MongoDB, Supabase, Vector Databases (Pinecone, Qdrant)

AI & Automation: OpenAI API, Claude API, LLMs(OpenRouter), Retrieval-Augmented Generation (RAG), Embeddings, Prompt Engineering, Agent Workflows

Soft Skills: Cross-functional Collaboration, Technical Communication, Problem-Solving, Adaptability, Ownership Mentality.

EXPERIENCE

Epigroww Global

Delhi, India

Lead Full Stack Engineer

Sept 2025 – Present

- Leading development of a full-stack influencer marketing SaaS platform (trydisco) using Next.js, Node.js, Vercel and MongoDB.
- Built responsive, high-performance frontend flows in React using reusable UI patterns and scalable state handling.
- Implemented “Connect Instagram” onboarding flow and DM automation builder end-to-end with scalable backend architecture.
- Integrated 2+ third-party APIs (Phyllo and Instagram analytics via RapidAPI) to enrich creator data and improve discovery filtering accuracy.

Helionix Tech

Remote

AI Full Stack Engineer (Contract)

Feb 2025 – Jun 2025

- Developed multi-agent automation workflows using tool-calling to orchestrate 5+ modular task flows for content generation and scheduling.

- Built and shipped a LinkedIn Chrome extension SaaS supporting automated publishing workflows.

ScaleGenAI

Remote

AI Full Stack Engineer

Jul 2024 – Dec 2024

- Built full-stack B2B SaaS applications for enterprise clients integrating LLM-driven AI features.

Infojini Inc.

Hyderabad, India

Frontend Engineer

Mar 2022 – Jul 2024

- Developed enterprise-grade frontend applications deployed across 2+ production environments for US government and healthcare clients.
- Built scalable UI modules using React, Next.js, and AngularJS in production environments.

PROJECTS

AtomX Website Redesign

- Redesigned and built the entire atomX website, ensuring proper SEO and modern UI design that aligns with the brand.
- Developed attractive GSAP and framer animations as a part of design to deliver a best-in-class user experience.

Agentic Copilot — Custom Knowledge-Based Assistant

- Designed a production-grade AI chat Agent with RAG system enabling users to chat with private knowledge bases.

EDUCATION

North Bengal St. Xavier's College

Siliguri, India

B.A. in History

2018 – 2021
